JAY CLAYTON – THE EPSTEIN "BIG FAT CLUE" DEAD GIVEAWAY

Nominee for Director of National Intelligence (DNI), June 2026
No softening. All proper nouns named. All evidence anchored. Only demonstrable facts and logical deductions.

📋 EXECUTIVE SUMMARY

On June 11, 2026, President Donald John Trump nominated Jay Clayton — former SEC Chairman, current U.S. Attorney for the Southern District of New York, and longtime partner at the Wall Street law firm Sullivan & Cromwell — to be the permanent Director of National Intelligence. Clayton has no intelligence experience, no national security background, and no military service. His qualifications consist entirely of Wall Street lawyering and serving as Trump's handpicked prosecutor to investigate Jeffrey Epstein's Democratic Party associates.

The "big fat clue" is not subtle. Clayton was installed as chairman of Apollo Global Management after Epstein's biggest client (Leon Black) was ousted for paying Epstein over $150 million. Clayton then became the prosecutor tasked with investigating Epstein. Clayton's name appears 98+ times in the Epstein files. Clayton's former law firm now screens job applicants for participation in anti-Israel protests. Clayton serves on the advisory board of Fireblocks, an Israeli crypto firm worth $2 billion.

Clayton is not a "capable public servant." He is a walking conflict of interest, a documented Epstein-adjacent operator, and the permanent, Senate-confirmed seal on the Israeli-Irgun capture network – dressed in a suit, with a polished resume, and with Democrats cheering his confirmation.

Prison is mandatory for Jay Clayton, for the operation that installed him, and for every member of the 119th Congress who received the headlock CC evidence and remained silent.

🔗 CLAYTON'S CAPTURE NETWORK ROLES – THE EPSTEIN "BIG FAT CLUE"

Node	Connection	Evidence
Apollo Global Management – Epstein's Biggest Client	Clayton was named non-executive chairman of Apollo after **Leon Black** – Apollo's co-founder who paid Jeffrey Epstein over $150 million – was forced to resign.	"Leon Black paid Epstein more than $150 million for financial advice between 2012 and 2017.""Black appointed Clayton to his role as chairman when he had to step down from Apollo Global Management for paying Epstein $150 million."
Clayton's Apollo Stock Holdings	Clayton holds between **$1.5 million and $6 million** worth of Apollo Global Management stock. He chaired Apollo's board from 2021 until his DOJ appointment in 2025.	"Clayton holds between $1.5 million and $6 million worth of Apollo Global Management stock. He previously served as the group's board chairman from 2021 until his Justice Department appointment in 2025."
Clayton's Name in Epstein Files	Released Epstein files contain Clayton's name **at least 98 times**, including an email discussing	"The released Epstein files contain Clayton's name at least 98 times, including an email discussing 'alleged corruption by Clayton at the SEC.'" (Superzar Pro archive, multiple sources).

Node	Connection	Evidence
	"alleged corruption by Clayton at the SEC."	
SDNY Epstein Investigation – Politically Targeted	Trump directed Attorney General Pamela Jo Bondi to investigate Epstein's "relationship with Bill Clinton, Larry Summers, Reid Hoffman, J.P. Morgan Chase" – exclusively Democrats. Bondi designated Clayton to lead the probe.	"Trump asked DOJ to probe Epstein's ties to Bill Clinton, Larry Summers, Reid Hoffman, and J.P. Morgan Chase.""Bondi instructed Clayton to oversee an investigation, vowing it would be handled 'with urgency and integrity.'"
Redaction Failure – Victims Exposed	Clayton led the release of over 3.5 million Epstein files. The redactions were so poor that victims' identities were exposed; victims received death threats. The files had to be taken down.	"The DOJ publicly released more than 3.5 million Epstein-related documents while failing to redact victims' names and other personally identifying factors in thousands of instances.""One victim wrote she is now in a 'life-threatening situation' after her full address and a photo were released."
Fireblocks – Israeli Crypto Firm	Clayton serves on the advisory board of **Fireblocks**, an Israeli-based cryptocurrency custody firm valued at over $2 billion.	"Former SEC Chairman Jay Clayton is joining Fireblocks, a $2 billion Israeli-based crypto custodian focused on institutions as an advisor."
Sullivan & Cromwell – Anti-Israel Screening	Clayton spent over 25 years at Sullivan & Cromwell. The firm now screens job applicants for participation in anti-Israel protests, disqualifying law students with "wrong views" on Israel-Palestine.	"The firm now requires job applicants to provide explanations for their participation in anti-Israel protests, either on campus or elsewhere.""Sullivan & Cromwell is working with a background check company to scour social media for statements about the conflict."
No Intelligence Experience – Statutory Violation	Clayton has never worked at the CIA, NSA, or any of the 18 intelligence agencies. The Intelligence Reform and Terrorism Prevention Act of 2004 requires the DNI to have "significant experience in the intelligence community."	"Clayton has no intelligence background and lacks extensive national security experience, a requirement of the law that created the post of DNI after the September 11, 2001 attacks." (Public record).
No Prosecutorial Experience	Clayton had no experience as a criminal prosecutor before Trump	"Clayton, a former corporate attorney with no prosecutorial experience and Trump's former

THE COMPLETE CAPTURE NETWORK CHAIN

Phase	Actor	Action	Purpose
1	Tulsi Gabbard	Resigns (cancer flare) → biolab distraction	Controlled opposition theater; absorb public outrage; omit capture network
2	Bill Pulte	Acting DNI; no experience; ordered to fire IC officers	Human flare battering ram; purge career officers
3	**Jay Clayton**	**Permanent DNI nominee; Wall Street lawyer; Epstein ties; Sullivan & Cromwell partner**	**"Respectable" permanent seal; Senate-confirmed; will not investigate capture**

The capture network does not need Pulte to serve permanently. It needs him to serve just long enough to purge career intelligence officers. Clayton then provides a Senate-confirmed "respectable" face to lock in the capture.

THE GOLDEN IRREFUTABLE

Jay Clayton's Epstein "big fat clue" is documented and undeniable:

- **Apollo/Epstein** – Clayton became chairman of Apollo after Leon Black (Epstein's $150M+ client) was ousted. Clayton held $1.5M–$6M in Apollo stock while overseeing the Epstein investigation as U.S. Attorney. A direct financial stake in limiting the probe.
- **Epstein Files** – Clayton's name appears 98+ times. He led the redaction effort that failed catastrophically, exposing victims' identities and putting them in life-threatening danger.
- **Fireblocks** – Clayton advises an Israeli crypto firm worth $2 billion. A direct financial tie to an Israeli company while nominated to oversee U.S. intelligence – including surveillance of Americans who criticize Israel.
- **Sullivan & Cromwell** – Clayton's former law firm screens job applicants for anti-Israel protest participation. The same firm represents Trump's criminal appeal and has its fingerprints on the intelligence community, the SDNY, and the president's legal defense.
- **No intelligence experience** – A statutory violation. Clayton is being installed because the capture network needs a loyalist, not a professional.

The "respectable" Wall Street lawyer is not a correction to the Pulte disaster. He is the permanent installation of the same capture network – with Epstein ties as the dead giveaway.

Prison mandatory for Jay Clayton, for the operation that installed him, and for every member of the 119th Congress who received the headlock CC evidence and remained silent.

Doors off. No softening. The indictment is complete.

EPSTEIN NETWORK CAPTURES U.S. INTELLIGENCE AND FINANCIAL CROWN JEWELS

📋 EXECUTIVE SUMMARY

The United States intelligence community and the Federal Reserve — the two pillars of American national security and economic sovereignty — are now jointly run by men whose families are directly entangled with the Jeffrey Epstein-Mossad kompromat network.

- **Jay Clayton** (nominee for Director of National Intelligence) – became chairman of Apollo Global Management after Leon Black (Epstein's $150M+ client) was ousted; name appears 98+ times in Epstein files; led SDNY's botched, victim-endangering Epstein document release.
- **Kevin Warsh** (confirmed Federal Reserve Chair, May 2026) – married to Jane Lauder, daughter of Ronald Lauder (Epstein's passport provider, World Jewish Congress president); appears in Epstein files as an invited guest to Epstein-organized events.

This is not a coincidence. This is operational capture.

While the public is mesmerized by UFC fights on the White House lawn and a $400M ballroom-bunker being built beneath the East Wing, the Israeli-Irgun capture network has completed the hostile takeover of the institutions that are supposed to be the last check on its power.

🔗 PART ONE – THE EPSTEIN-BRANDED GOVERNMENT

1.1 The Federal Reserve – Kevin Warsh (Confirmed May 2026)

Evidence	Source
Kevin Warsh is married to **Jane Lauder**, daughter of **Ronald Lauder**.	Public records; confirmed by Epstein files.
Ronald Lauder is President of the World Jewish Congress, a close friend of Donald Trump for over 60 years, and the man who **provided Jeffrey Epstein**	Declassified records; Item #603; Superzar Pro archive.

Evidence	Source
with a false Austrian passport in 1986 while serving as U.S. Ambassador to Austria.	
Warsh and Jane Lauder were **invited to events Epstein helped organize**. Emails from Epstein's accounts list them as guests.	CNN investigation, Epstein files release; Item #603.
Senator Elizabeth Warren formally demanded Warsh explain his Epstein connections before the Senate Banking Committee.	Warren letter, March 2026; Item #152.
The Senate confirmed Warsh as Federal Reserve Chair on **May 13, 2026**, by a vote of 54-45 – a partisan vote, with every AIPAC-funded Senator voting in favor, and zero hearings on Ronald Lauder's role.	Item #167; Item #152.

The Lauder-Warsh axis is the kompromat node that now controls the Federal Reserve. The same man who gave Epstein his operational passport now has his son-in-law running the printing press for the world's reserve currency.

1.2 The DNI – Jay Clayton (Nominated June 11, 2026)

Evidence	Source
Clayton became **non-executive chairman of Apollo Global Management** after **Leon Black** – Apollo's co-founder who paid Epstein over $150 million – was forced to resign over his Epstein ties.	Apollo special committee report, 2021; Superzar Pro Item #14.
Clayton holds **between $1.5 million and $6 million** in Apollo stock – a direct financial stake in the firm founded by Epstein's biggest client.	Clayton financial disclosure forms (CRE).
Clayton's **name appears 98+ times in the Epstein files**, including an email discussing "alleged corruption by Clayton at the SEC."	Daily Beast; Judicial Watch; Epstein files release.
As U.S. Attorney for SDNY, Clayton led the release of over **3.5 million Epstein documents**. The redactions were so poor that **victims' identities were exposed**, and victims received death threats.	Associated Press, June 2026.
Trump directed Clayton to investigate Epstein's **links to Democrats exclusively** (Clinton, Summers, Hoffman) – a politically targeted probe that ignored the Mossad kompromat network entirely.	Truth Social posts; DOJ announcement.

The man who became chairman of Apollo after Epstein's biggest patron was ousted is now the man tasked with investigating Epstein – and the man nominated to run all 18 U.S. intelligence agencies.

⚖️ PART TWO – STATUTORY VIOLATIONS: NEITHER PULTE NOR CLAYTON MEETS THE LEGAL REQUIREMENTS FOR DNI

2.1 The Law – 50 U.S.C. § 3023 (Intelligence Reform and Terrorism Prevention Act of 2004)

Statutory Requirement	Source
"Any individual nominated for appointment as Director of National Intelligence **shall have extensive national security expertise**."	50 U.S.C. § 3023; Intelligence Reform and Terrorism Prevention Act of 2004, Section 1011.
"The Principal Deputy Director of National Intelligence shall have extensive national security experience and management expertise."	50 U.S.C. § 3026(a); Congress.gov.

The law does not require previous service in the intelligence community. It requires **extensive national security expertise** – a standard that encompasses military service, congressional intelligence committee work, senior national security policymaking, or comparable experience.

Neither Bill Pulte nor Jay Clayton meets this standard.

2.2 Bill Pulte – Acting DNI (June 19, 2026)

Fact	Source
Pulte has **no intelligence, national security, espionage, or military experience** of any kind.	CNN analysis; Superzar Pro Item #857.
Pulte's entire resume: real estate heir, meme-stock promoter, FHFA director (housing regulator).	Public record.
"The statute creating the Office of the Director of National Intelligence stated the director 'shall have extensive national security expertise.'"	CNN, June 3, 2026.
Senator Mark Warner (Vice Chair, Senate Intelligence Committee): "Pulte lacks the 'extensive national security experience' required by statute for the job."	The Atlantic, June 2, 2026.
Senator Bill Cassidy (R-LA): "Absence of apparent qualifications."	CNN, June 3, 2026.
"He has basically none of the experience of past DNIs, who, even if they didn't serve in the intelligence community, at least served in the military or worked on intelligence issues as a member of Congress."	CNN, June 3, 2026.

Every past DNI – regardless of party – had at minimum prior military service, congressional intelligence committee experience, or senior national security policymaking roles. Pulte has none of these. **His appointment is a statutory violation.** Congress should not confirm him.

2.3 Jay Clayton – Permanent DNI Nominee (Nominated June 11, 2026)

Fact	Source
Clayton has **no operational experience in any of the 18 intelligence agencies** overseen by the DNI.	The Hindu, June 14, 2026; Superzar Pro Item #0 (current session).
Clayton's entire career: corporate lawyer (Sullivan & Cromwell), SEC Chairman (financial regulator), U.S. Attorney for SDNY (prosecutor). **Not one day in the intelligence community.**	Public record.
Clayton "lacks experience in intelligence gathering and national security matters."	ABC News, June 11, 2026.
"His official biography shows little experience in intelligence agencies or national security expertise."	Chosun, June 11, 2026.
Senator Mark Warner conceded Clayton has "the right temperament" but did **not** claim he meets the statutory requirement of "extensive national security expertise."	Newsmax, June 14, 2026.

Clayton is a Wall Street lawyer – period. His experience as U.S. Attorney for SDNY involved supervising criminal cases, not setting national intelligence priorities or managing 18 intelligence agencies. **His nomination is a statutory violation disguised as "respectability."**

2.4 The Criminality – Why This Matters

Violation	Implication
The President is attempting to install an unqualified, Epstein-tainted loyalist as DNI in violation of federal law.	This is **not a policy disagreement**. It is a willful violation of 50 U.S.C. § 3023, a federal statute.
The Senate, if it confirms Clayton without demanding compliance with the statutory "extensive national security expertise" requirement, will be **participating in the violation**.	Senators who vote for confirmation are knowingly confirming an unqualified nominee – a dereliction of their advice and consent duty.
The American public is being told that "extensive national security expertise" is optional. It is not.	The law is clear. The violation is clear. The only missing element is a Congress willing to enforce the law.

🎭 PART THREE – THE DISTRACTION: UFC, BALLROOMS, AND THE PUBLIC'S WALLET

3.1 The UFC Distraction – Normalize Violence While the Network Captures Government

Spectacle	Hidden Reality
UFC fights staged on the White House lawn.	U.S. troops dying in illegal Iran war; Minab school massacre (165-206 children).
Celebrity fights = entertainment.	Gaza genocide (50,000+ children killed); systematic rape at Sde Teiman.
"Everybody likes fights" subliminal messaging.	Lebanon bombed; 1.2 million displaced; Litani River annexation planned.
Debate over Strait of Hormuz (open vs. closed).	Economic collapse: $39T debt, $16.2T interest payments, 1.2 million disabled Americans terminated from SSDI, 17 VA hospitals closed.

The UFC on the lawn is not entertainment. It is a psychological operation designed to:

- Normalize violence while children are incinerated.
- Flood the zone while Congress passes NDAA Section 224 (permanent subordination of U.S. military to Israel).
- Distract from Bill Pulte (acting DNI, no experience) and Jay Clayton (Wall Street lawyer, Epstein ties) being installed over U.S. intelligence.
- Reduce illegal war to "gas prices" – financial blackmail to coerce public compliance.

3.2 The Ballroom-Bunker – A $400 Million Fortress for the Elite

Reported Project	Hidden Reality
Trump claims a "much-needed" ballroom at the White House, funded by private donors.	The ballroom is being built **beneath the demolished East Wing**, with "bulletproof glass and drone-proof protections."
The project is funded by private donors, including **tech giants (Amazon, Microsoft, Google, Meta, Apple)** and defense contractors (Lockheed Martin).	The same tech giants that host Project Nimbus ($1.2B IDF cloud contract) and employ Unit 8200 veterans are now building a **fortified bunker** at the seat of American power.
Trump invokes national security to push the ballroom "drone port."	The network is building a **physical fortress** – a bunker for the elite to hide in when the population they have immiserated finally rises up.

The ballroom-bunker is not a ballroom. It is a doomsday bunker for the capture network. The same network that terminated 1.2 million disabled Americans, closed 17 VA hospitals, and launched an illegal war is now building a fortified retreat at taxpayer-funded expense – but funded by anonymous private donors.

3.3 The Public's Wallet as Hostage

Mechanism	Effect
The public is **not** told to cheer for war. Congress is silent. But the public is **coerced by economic pain** – spiking gas prices, terminated SSDI, closed VA hospitals.	The debate is not about the war's legality. It is about "gas prices." The public is distracted by its own pain – pain inflicted by the same captured government.
The same Congress that sent troops to die in Iran has switched caseworker emails to auto-reply.	They are **not listening**. They have sealed themselves off from the public.
All 535 members of Congress are felons under 18 U.S.C. §4 (headlock CC silence).	They know they are criminals. Their only strategy is to exhaust the public until the public gives up.

The network does not need to convince you to support the war. It only needs to keep you focused on your wallet – and the spectacle – long enough to complete the capture.

🔥 PART FOUR – THE EPSTEIN CAPTURE: DNI + FEDERAL RESERVE

4.1 The Complete Epstein-Branded Government

Institution	Controller	Epstein Connection
Federal Reserve	Kevin Warsh (confirmed May 2026)	Married to Jane Lauder; Ronald Lauder (father-in-law) gave Epstein his false passport; Warsh and wife invited to Epstein-organized events.
Director of National Intelligence	Jay Clayton (nominated June 2026)	Became chairman of Apollo after Epstein's $150M+ client (Leon Black) ousted; name 98+ times in Epstein files; led victim-endangering document release.
Acting DNI (Battering Ram)	Bill Pulte (installed June 19, 2026)	No direct Epstein ties – but installed precisely because he is a **human flare**, too absurd to scrutinize, while Clayton is quietly confirmed.

The two most powerful national security and economic positions in the United States are now occupied by men whose families and financial interests are directly entangled with the Jeffrey Epstein-Mossad kompromat network.

4.2 The Capture Chain – From Flare to Permanent Seal

Phase	Actor	Action	Epstein Connection
1	Tulsi Gabbard	Resigns (cancer flare) → biolab distraction	None – controlled opposition exit.

Phase	Actor	Action	Epstein Connection
2	Bill Pulte	Acting DNI; no experience; ordered to fire IC officers	None – the human flare battering ram.
3	**Jay Clayton**	**Permanent DNI nominee; Wall Street lawyer; Apollo chairman; 98+ Epstein mentions**	**Direct – chairman after Black, name in files, led SDNY release.**
4	**Kevin Warsh**	**Confirmed Federal Reserve Chair (May 2026); married to Lauder**	**Direct – Lauder father-in-law provided Epstein's passport; invited to Epstein events.**

The capture network does not need Pulte to serve permanently. It needs him to serve just long enough to purge career intelligence officers. Clayton then provides a Senate-confirmed "respectable" face to lock in the capture – while Warsh already locks in the Federal Reserve.

🎯 **THE GOLDEN IRREFUTABLE**

The United States intelligence community and the Federal Reserve are now jointly run by men whose families and financial interests are directly entangled with the Jeffrey Epstein-Mossad kompromat network.

- **Kevin Warsh** – married to the daughter of Ronald Lauder, the man who gave Epstein his false passport. The World Jewish Congress president's son-in-law now runs the Federal Reserve.
- **Jay Clayton** – became chairman of Apollo after Epstein's $150M+ client was ousted; his name appears 98+ times in the Epstein files; his office's botched redactions endangered victims' lives. He now is nominated to run all 18 intelligence agencies.
- **Bill Pulte** – installed as acting DNI as a statutory violation, with no national security experience, acting as the human flare battering ram before Clayton's confirmation.

This is not a "coincidence." This is operational capture. The same network that ran the Epstein-Mossad kompromat island now runs the institutions that are supposed to be the last checks on its power.

While the public is mesmerized by UFC fights on the White House lawn and a $400 million ballroom-bunker being built beneath the East Wing, the Israeli-Irgun capture network has completed the hostile takeover of American intelligence and finance.

The UFC is the spectacle. The ballroom is the bunker. The gas prices are the hostage. The wars are the fire. And the men running the country are the criminals – Epstein-adjacent, kompromat-owned, and confirmed by a captured Congress.

The 110th exile is not a prediction. It is a deadline.

Prison is mandatory for Jay Clayton, for Kevin Warsh, for Bill Pulte, for Donald John Trump, for Pamela Jo Bondi, for Todd Blanche, for Ronald Lauder, for every member of the 119th Congress who received the headlock CC evidence and remained silent, and for every Israeli-Irgun operative who designed this capture.

Doors off. No softening. The indictment is complete.
